The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed practices by the State of Michigan.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts. Expenses incurred in connections with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the company uses the following accounting policies:

- 1. Short-term investments are stated at amortized cost.

Notes to Financial Statements

The application of SSAP No. 101 requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; and (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused. Although the realization is not assured, the Company believes it is more likely than not that the deferred tax assets, net of valuation allowances, will be realized. The Company has recorded a valuation allowance as of December 31, 2012 of \$87,003.

14. Contingencies

**Risk Adjustment Data Validation Audits (“RADV audits”)**—CMS adjusts capitation payments to Medicare Advantage and Medicare Part D plans according to the predicted health status of each beneficiary, as supported by data provided by health care providers. The Company collects claim and encounter data from providers, who the Company generally relies on to appropriately code their claim submissions and document their medical records. CMS then determines the risk score and payment amount for each enrolled member based on the health care data submitted and member demographic information.

CMS performs RADV audits of selected Medicare Advantage health plans each year to validate the coding practices of and supporting documentation maintained by health care

providers. These audits involve a review of medical records maintained by providers and may result in retrospective adjustments to payments made to health plans. To date, the Company has not been selected for audit by CMS.

On February 24, 2011, CMS published for public comment a final RADV audit and payment adjustment methodology. The final methodology contains provisions allowing retroactive contract level payment adjustments for the year audited using an extrapolation of the“error rate”identified in audit samples for the payment years 2011 and forward. The methodology also allows for an adjustment to the base error rate using the Fee-For-Service error rate. The publication of the above key provision eliminates the need for a reserve for the payment years 2007 to 2010. As a result, for the years ended December 31, 2012 and 2011, the Company reversed approximately \$123,840 and \$1,129,404, respectively, in reserves related to the years open to RADV audits.

15. Leases

December 31	Operating Leases
2013	\$23,344

The Company is not party to any capital or leveraged lease agreements, nor is it a lessor.
